2. BUNDLES

The bundle offers give the right to Voice-SMS and/or Data traffic packets available in different searchable sub-accounts (bundle USSD code), valid for a specific period of time. These traffic packets are deducted as they are used over the duration of the bundle. The bundle is suspended at the end of its validity period.

3. ABUNDANCE OFFERS

Abundance offers are mechanisms that provide benefits to subscribers in the form of free access, traffic bundles or pricing. In addition to promotions, they include friends and family plans, youth bundles, top-up options and bonus options.

a. Recharge options

Top-up offers are activated prior to airtime top-up via USSD code. These options entitle you to special prices and/or bonuses for a certain period of time, depending on the amount of the top-up.

OPERATORS	MTN CAM		
OPTION	MTN EASY BOOSTER

TARIFFS	on net CALL : 1,5F/s on net SMS : 30F/sms		
VALIDITY	02 days till midnight	03 days till midnight	07 days till midnight

b. Bonus options

These are subscriber loyalty formulas, some of which depend on the level of consumption of the subscriber, either by default or by activation. They are usually in the form of a bundle and grant bonus credit and/or traffic, which are subject to special pricing during the period of validity.
